The European Chamber of Technology (EUTECH) has partnered with the European Senate of Economy in the DACH region. Through this partnership, we offer the opportunity to become a senator in the EU Senate. All senators are, of course, also automatically innovators and ambassadors of EUTECH.

By signing, I acknowledge the goals and contribution regulations of EUTECH and commit to paying the monthly membership fee (billed annually) for the partnership level I have chosen. For the Senator and Ambassador partnerships, a one-time admission fee of 500 EUR is charged.

The partnership has a minimum duration of one year and will automatically renew for an additional year unless it is terminated in writing three months before the end of the current partnership year.

I am aware that EUTECH events are reported in the media, including print and photographs. I consent to this, even if I may appear in a photograph. The data protection regulations remain unaffected by this consent.
